This page is optional. You can send in your own 60-second commercial as an .AVI file on a CD-ROM.  
Your CD-ROM will NOT be returned!

- NOTE:
1. On-line video quality depends on the quality of your VHS original, the quality level chosen in the conversion process, and the speed of the viewers Internet connection.
  2. MPeG files (.MPG) will also work, but they are much larger in size and take about 10 times longer to download. Your dial-up visitor may not wait for a file that large to load.
  3. PLEASE CLEARLY LABEL THE CD-ROM THAT YOU SEND TO US!
